

CREATION OF COMFORTABLE LIVING SPACE

FLOOR-MOUNT DIFFUSER

Kuken SKF floor diffuser contributes to improvement in efficiency and productivity in the office

Office is a space where individuals congregate with different sensitivity and preference. "Air-condition management" we define is the system in which each individual in the office has equal opportunity to receive benefit of amenity life in accordance with his/her health condition and preference to concentrate on work. We believe that creation of comfortable life space will lead to generation of high-productivity and energy-saving.

Air-Conditioning Management

Responding to thermal needs of each individual in the office contributes to productivity improvement

System Applying Floor-Mount Diffuser

1

AREA HIGH IN DENSITY WITH EMPLOYEES
COMBINATION OF DIRECTIONAL FIN PIECES TO CREATE FLOW PATTERN FOR EACH INDIVIDUAL

SKF-200DL

1~4 DIRECTIONAL

RECOMMENDED
• BUSINESS ZONE
• ACCOUNTING ZONE

2

WIDE SPACE FILLED WITH AIR-FLOW

SKF-220SL

RESIN OR ALUMINUM

SWIRLING DIFFUSER

RECOMMENDED
• WHOLE OFFICE
• PUBLIC SPACE
• ENTRANCE

3

COMBINATION OF 2 FINS COVERS DIRECTIONAL AND DIFFUSIONAL FUCTION

SKF-220TW

RESIN OR ALUMINUM

2 DIRECTION SWITCHABLE

RECOMMENDED
• AREA WITH MALE & FEMALE INTERMINGLED

4

DIRECTIONAL FIN CONTROLS FLOW DIRECTION IN ANY WAY

SKF-130

DIRECTIONAL

RECOMMENDED
• MALE-DOMINATED ZONE
• BUSINESS ZONE

5

FIN PRODUCES INTENSIVE, DIRECTIONAL FLOW

SKF-106PR

DIRECTIONAL

RECOMMENDED
• MALE-DOMINATED ZONE
• BUSINESS ZONE

6

PROTECTION AGAINST HEAT TRANSMITTED THROUGH WINDOW

KFL

1-WAY DIRECTIONAL

RECOMMENDED
• WINDOW SIDE
• WALL SIDE

7

EQUIPPED WITH ELECTRIC FAN TO DIFFUSE DIRECTIONAL AIR FLOW INTENSELY

KFL-B-F

DIRECTIONAL

RECOMMENDED
• PATHWAY

OPTIONAL FUNCTION AVAILABLE

helps to boost if obstacles disturb air flow below the floor

operates inter-connectedly with room-thermo to control flow by built-in motor damper

FAN UNIT

MOTOR DAMPER
